Lifestyle

Shinnchan is the one show that made us laugh till we cried. It was one of our favourite shows as a kid. And to be honest, it still is, even as an adult I can say this. Getting over the hilarious acts of Shinnchan is still not done, and can never be.

Remember, as kids, our parents wanted us to watch anything else but this. And the reason is also pretty clear to all of us. They did not want any of us to do a single thing that Shinnchan did. But, there was no backing out anyways. Despite such resistance, our love for the naughty Shinnchan grew by leaps and folds. Shinnchan was a mischievous and witty child. Shinnchan stands apart due to his over-smart answers and his weird habits.

Come, here I will take you through the journey of this mysterious show. This can be a test about how much you know about Shinnchan. Moreover, as we all have experienced, **journey is more enjoyable than the destination**. So, have a fun read guys.

**Shinnchan, the real hero.**

Shinchan's antics are the ones that drive the complete show. He is an outspoken and curious child. He always has questions ready, to be answered by his mother, Misae and his teacher, Matsuzaka madam. He is a kid who dares to crack adult jokes. Sometimes, Shinchan has also displayed beyond-his-age maturity and there have been some instances where he showed immense concern for his family, despite mostly behaving bad with them.

### **The om-nom-nom and humming sounds...**

With which Shinchan eats are damn hilarious. Shinchan's love for chocolate cookies and hatred for green peppers have made us all love him. But, his sassy humour is to watch out for.

### **Shiro, when Shinchan calls him...**

It is so damn sweet. Many a times, the Noharas forget his meals. He is shown as an extremely weak dog. He diligently cares for his owners and is very responsible. Moreover, his doghouse is a hideout for Shinchan.

### **This is the complete Nohara family**

Shinchan's mother drew the entire cartoon series. She used simple crayons to depict the complete story of Shinchan and Himawari.

### **Finally,suspense revealed...**

What happened was that Misae lost both her kids, Shinchan and Himawari when they were quite young. As usual, they went for their usual grocery errands shopping. Suddenly Shinchan saw that Himawari is crossing the street without any assistance. In order to save her from a moving car, the two got hit and died.\*Sad\*. This is depicted in the last episode of the series.

### **Misae, Shinchan's mother...**

Expressed her sorrow through a series of crayon drawings in a scrapbook. She showed how Shinchan and Himawari would be and what they would have done, being their usual naughty selves.

**All this is shown in the last episode of Shinchan...**

But, this was never aired. The makers of the show wanted to end it on a happy note. What began as a normal day for the complete Nohara family, turned out to be one of the dreaded days in the lives of Misae and Harry Nohara. We hope that Misae and Harry get over this grief soon.

Sinchan is the character that will drive a laugh to your face, whenever you are depressed or frustrated. One of the best things about Shinchuan is that **he loves the way he lives his life**, he is very truthful about himself. His silliness will make you ROFL. You can make him your friend, who will try his best to make you laugh.

Thanks to Misae for the hearty laughters her sketches have brought to us and our kids. Long live Misae!
